I was diagnosed with breast cancer in 2016. I was 45 years old and had no family history of the disease. It was a complete shock.

I underwent a lumpectomy, chemotherapy, and radiation therapy. The treatment was difficult, but I got through it with the support of my family and friends.

I am now cancer-free, and I am grateful for every day that I have. I have learned so much from my experience with breast cancer. I have learned

that I am stronger than I ever thought I was. I have learned that I am not alone. And I have learned that there is always hope.

I wrote this book to share my story with others who are facing breast cancer. I want to give them hope and encouragement. I want them to know that they are not alone. And I want them to know that there is always hope.
